**Subject:** FW: Urgent request for SEMS data pull  
1462 records with primary site type of Mining.xlsx

I just wanted to jump in to say that this is truly is urgent – hopefully anything else being worked on can be set aside for a bit. This is in support of a national exercise happening in response to the mine spill out in Colorado.

**Subject:** Urgent request for SEMS data pull

Hi Matt,

We have an urgent request for a data pull from SEMS.

Can you pull the columns in the attached excel file for all sites in SEMS (not CPAD) that have the following:

1) Primary site type category of Mining; OR

2) Primary site type subcategory =

**Mine tailings disposal**

**Mining Only**

**Mining and Mineral Processing/Smelting**

**Non-metal minerals**

**Primary metals/mineral processing**

**Uranium Mining**

OR

3) Site Incident Category = Mines/Tailings; OR

4) "Mine", "Mines", or "Mining" in the site name.

Please sort by region, then state, then site name.

Eliminate any duplicate records.

We need this as quickly as possible for potential distribution to regions this afternoon.

Please call me with any questions.

Thanks!

Randy Hippen
